Contents of *Animal Feed Science and Technology*, Volume 19

VOL. 19 NOS. 1–2 JANUARY 1988

Animal excreta as ruminant feed — scope and limitations under Indian conditions
R.C. Jakhmola, S.S., Kundu, M.L. Punj, K. Singh, D.N. Kamra and R. Singh (Haryana, India) 1
Colonization of thick-walled plant tissues by anaerobic fungi
E. Grenet and P. Barry (Ceyrat, France) 25
Fresh and dried brewers' grain as protein supplements to barley straw diets given to pregnant beef cows
J.P. Alawa, G. Fishwick and R.G. Hemingway (Glasgow, Gt. Britain) 33
Supplementation of rice straw with crop by-products. I. Legume straw supplementation
N.P. McMeniman, R. Elliott and A.J. Ash (Brisbane, Qld, Australia) 43
Treatment of whole-crop cereals with alkali. 4. Voluntary intake and growth in steers given wheat ensiled with sodium hydroxide, urea or ammonia
G. Deschard, V.C. Mason and R.M. Tetlow (Maidenhead, Gt. Britain) 55
Effects of moisture level, treatment time and soya bean addition on the nutritive value of urea-treated maize stover
A.A. Dias-da-Silva, A.M. Ferreira and C.V.M. Guedes (Vila Real, Portugal) 67
Treatment of dairy sheep with soluble glass boluses containing copper, cobalt and selenium
G. Zervas (Iera Odos, Greece) 79
The effects of inoculation, addition of glucose and mincing on fermentation and proteolysis in ryegrass ensiled in laboratory silos
S.J.E. Heron, R.A. Edwards and P. McDonald (Edinburgh, Gt. Britain) 85
The energy content of full-fat soya beans in meal and pelleted feeds for adult cocks and broilers
C.A. Kan, C.W. Scheele and W.M.M.A. Janssen (Beekbergen, The Netherlands) 97
A comparison of bioavailable energy values of ground cereal grains measured with adult cockerels and growing pigs
W.C. Smith, P.J. Moughan, G. Pearson and M.R. Patchell (Palmerston North, New Zealand) 105
Investigations on the nutritional value for ruminants of various fats
H.J. Abel, N. Abd El Ati, G. Abd El Hafiz, M. Abd El-Razek, T. El-Din and K. El Shazly (Göttingen-Weende, F.R.G.) 111
Effects of ammonia and sulphur dioxide gases on the composition and digestion of barley straw
G. McL. Dryden, (Queensland, Australia) and R.A. Leng (Armidale, Australia) 121
Composition and fibre digestion in morphological components of an alfalfa–timothy sward
M. Collins (Lexington, KY, U.S.A.) 135
The effect of grinding and pelleting hay on digestibility, fermentation rate, digesta

passage and rumen and faecal particle size in cows
P. Udén (Uppsala, Sweden) 145
The effect of ammoniation on the nutritive value of wheat, barley and oat straws. I. Changes in chemical composition in relation to digestibility in vitro and cell wall degradability
V. C.. Mason, R.D. Hartley, A.S. Keene and J.M. Cobby (Maidenhead, Gt. Britain) 159
The effect of ammoniation on the nutritive value of wheat, barley and oat straws. II. Digestibility and energy value measurements in vivo and their prediction from laboratory measurements
D.I. Givens (Stratford-on-Avon, Gt. Britain), A.H. Adamson (Bristol, Gt. Britain) and J.M. Cobby (Maidenhead, Gt. Britain) 173

Short Communications
Dietary fibre and nitrogen excretion and retention by pigs
C.A. Morgan and C.T. Whittemore (Edinburgh, Gt. Britain) 185
The nutritive value of hulless barley for swine
P.A. Thacker, J.M. Bell, H.L. Classen, G.L. Campbell and B.G. Rossnagel (Saskatchewan, Canada) 191

Guide for Authors 197

VOL. 19 NO. 3 FEBRUARY 1988

Efficacy of sulfur dioxide as a grain preservative
D.M. Gibson, J.J. Kennelly, F.X. Aherne and G.W. Mathison (Edmonton, Alb., Canada) 203
SO_2 treatment for converting straw into a concentrate-like feed: a growth study with lambs
D. Ben-Ghedalia, J. Miron, Y. Est and E. Yosef (Bet Dagan, Israel) 219
The effects of method of processing of starters, tallow inclusion and roughage supplementation on the performance of early-weaned calves
P.J. Caffrey, C. Miller, P.O. Brophy and D.L. Kelleher (Dublin, Eire) 231
The use of a cellulase technique to predict digestibility, metabolizable and net energy of forages
J.L. De Boever, B.G. Cottyn, J.I. Andries, F.X. Buysse and J.M. Vanacker (Melle-Gontrode, Belgium) 247
Population changes of fibrolytic rumen bacteria in the presence of phenolic acids and plant extracts
D.E. Akin, L.L. Rigsby (Athens, GA, U.S.A.), M.K. Theodorou and R.D. Hartley (Hurley, Gt. Britain) 261
Fibre degradation in the rumens of animals receiving hay, untreated or ammonia-treated straw
A.T. Silva and E.R. Ørskov (Aberdeen, Gt. Britain) 277
The effect of five different supplements on the degradation of straw in sheep given untreated barley straw
A.T. Silva and E.R. Ørskov (Aberdeen, Gt. Britain) 289

Vol. 19 No. 4 **MARCH 1988**

Microbial dynamics in barley grain stored under controlled atmosphere
A. Karpersson, S. Lindgren and N. Ekström (Uppsala, Sweden) 299
Feeding and nutritive value of hominy and corn grits for poultry
S. Leeson, J.D. Summers (Guelph, Ont., Canada) and N. Hussar (London, Ont., Canada) 313
Use of fat in diets of sheep in hot environments. I. Effects on performance, carcass characteristics and lipid composition of plasma
M.A. Ilian, M.A. Razzaque, A. Al-Awadi and A.J. Salman (Safat, Kuwait) 327
Use of fat in diets of sheep in hot environments. II. Effect on rumen metabolism
M.A. Ilian, M.A. Razzaque and A.J. Salman (Safat, Kuwait) 343
Effect of sorghum straw alone or in combination with molasses and nitrogen sources on performance of Sudan dsesert lambs
A.G. Osman, A.E. El Tayeb, A.H. Sulieman and T.A. Mohammed (Khartoum North, Sudan) 351
Evaluation of triticale given to pigs, poultry and rats
M. Rundgren (Uppsala, Sweden) 359

Book Reviews
Feed intake 377
Animal Nutrition 378
Breeding of silage maize 379
